

Peronospora del pomodoro e della patata Phytophtora infestans (fungo)

fungo

foglia

Intercellulare con austori

patata mais

Cimice verde
Nezara viridula (insetto)

sono anche lo stadio svernante

adulti

uova

5 stadi giovanili

come faccio a distinguere i giovani di cimice verde dalle coccinelle? Mi sembrano uguali...

Dorifora della patata

Leptinotarsa decemlineata (insetto)

Mal bianco (Oidio) delle cucurbitacee Erysiphe cichoracearum (fungo)

ECTOPARASSITA (ectofita)

fungo

Peronospora delle cucurbitacee

Pesudoperonospora cubensis (fungo)
